SCRATCH ON HAND RESULTS FATALLY

Minor Bradshaw, Colored, Janitor at Post-Office, Dead.

A Slight Injury Received While Mopping the Floor, Produced Blood Poison.

WAS A WELL KNOWN MAN

Minor Bradshaw, the colored janitor at the government building, died this morning at his home, 423 South Seventh, from blood poison, resulting from a scratch on the hand.

Bradshaw was mopping the hall floor on the second story of the government building, about two weeks ago, when he struck his hand against something, making a slight scratch, to which he paid no attention at the time. A vial of some kind of liquid had dropped and broken on the hall floor, and he cleaned it up. In a short while his hand became inflamed, and blood poison developed, which caused his death this morning.

He was about 45 years of age and left a wife and three children. He was a quiet, industrious and good citizen and was much liked by the officials and employees of the government building. He was a familiar figure to visitors there, and will be greatly missed.

Bradshaw was for many years connected with the theaters in Paducah, working at Morton's opera house until it burned. He was for many years in addition to working in the theater, a bill poster, and was well informed on all matters theatrical. He knew many of the celebrities who visited Paducah in bygone days, and although it had been several years since he worked about a theater, he kept up on all matters pertaining to the profession.

No funeral arrangements have been made.

HELPLESS STEAMER

BROKEN SHAFT MAKES HER POWERLESS 19 MILES FROM LAND.

Queenstown, May 18.—The Red Star liner Friesland, from Philadelphia for Liverpool, lies helpless with a broken shaft nineteen miles southeast of Minehead. All the passengers are well and no fears are entertained for the safety of the steamer.

THOUSANDS VIEW FINE ATTRACTIONS

The Opening Night of the Carnival Was Most Auspicious.

Large Crowds See Parade—Lion Rides in An Automobile.

SHOWS ALL HAVE BIG CROWDS

The carnival opened with a rush yesterday, and last night the grounds fairly swarmed with delighted people. The attendance yesterday afternoon was several thousand, there being over 1000 paid admissions. Last night there were about 2,600 paid admissions to the grounds, and all the shows did a good business.

The parade was last night witnessed by thousands of people, and the street car company handled the crowds to and from the grounds in a prompt and satisfactory manner.

Although one day of the carnival was lost, it is expected that it will be fully made up before the week is out.

The free attractions at the grounds are above the average, and the paid ones are well worth the money.

The country store does the usual good business, and confetti was last night turned loose in great quantities.

The feature of the parade was a lion riding on the seat of Mr. Charles Weille's automobile with Mr. Weille and the trainer sat in the seat behind. The lion is well trained and sat stolidly erect in disdainful disregard of the staring multitudes.

Colonel Mundy personally looked after the orphans whom he had thoughtfully invited and did all in his power to make the afternoon enjoyable for the children. That he succeeded the merry shouts and smiling faces of the youngsters gave ample testimony.

In the parade the city officials in handsome carriages and automobiles came first, headed by a fine band. Then came Captain Gatte's splendid carnival musical organization at the head of the carnival people also in carriages. Colonel Mundy himself and his favorite lion Nero were the great features of the parade. In a handsome auto with Nero sitting on the front seat by himself came the colonel and his friend Mr. Charles Weille, who owned the vehicle. Mr. Mundy had a small steel chain in his hand and that was the only restraint he placed on his pet.

Last night there were fully seven thousand visitors on the spacious grounds. A more delighted or happier crowd would be hard to find in many a day's travel. Among them were many strangers in the city.

The attractions have magnificent wagon fronts, lit up by myriads of electric lights, presenting a beautiful appearance. All the shows were of a high class order, not a single feature in the least offensive to the most fastidious patron, therefore the public thoroughly enjoyed everything under the tents and upon the grounds. In the Hippodrome the Francialias, a strong man and woman, did some stunts that astonished the spectators. The Valygeans, six in number, presented an acrobat turn that pleased all beholders. The Millmans, Mr. and Mrs. and their beautiful little daughter, gave an artistic tight wire performance that to say was the best ever seen here, but mildly expresses the truth. The Muncie Zouaves made a fine appearance, their drill bringing forth frequent applause. Diavola in his ride around the loop-loop held every spectator spell bound from his start until he landed safely on the ground gracefully acknowledging the thunders of applause that greeted him.

The wild animal exhibition contains the most marvelous performance of trained animals that has ever visited our city. Madame Pauline, Madame Van Gorter, Prof. Crawford and last but not east, Prof. Ricardo, seem to be wholly without fear while handling a large number of lions, panthers, jaguars, hyenas and leop-

THE GILLESPIE TRIAL DRAGS ON

Damaging Evidence Given at Today's Session.

The Ohio Coal Miners Strike Will Be Settled Tomorrow.

THE OHIO STATE CONVENTION.

Rising Sun, Ind., May 18.—In the Gillespie trial today Mrs. Jane Boyle gave the most damaging testimony yet presented against the defendant.

She testified that Mrs. Steward, sister of the murdered woman, and one of the defendants, said after the shooting, "I don't care who is killed, so it's not mother." The plans of the defense are to prove an alibi.

TO SETTLE STRIKE.

Wheeling, May 18.—A special convention, the last of the Ohio operators and striking miners, will be held here tomorrow, and the strike will probably be settled. Twelve thousand men will return to work.

INDORSED ROOSEVELT.

Columbus, O., May 18.—The Republican state convention today selected the delegates to the Chicago convention and nominated the ticket prepared in advance by the leaders.

ards, putting them through many acts that are not to be seen anywhere else in the world. The Crystal maze with its two funny exits and its lost room where in sits the young lady for whom you seek, attracted many searchers last evening but so far no one has succeeded in getting the reward for rescuing the pretty maiden.

Lotta pleased every one with the new and original dances beautifully executed by herself and her corps of premier dancers. Their magnificent costumes called forth many comments from the ladies.

Floretta, the armless wonder, entertained a large number of callers during the day. Her dextrous use of her toes fills the spectator with wonder and she is easily a great card for the carnival.

Oration has beautiful moving pictures, several pleasing illusions and illustrated songs.

The high diver makes the most daring and graceful dive ever witnessed in this part of the country.

The German village was well patronized. The band of 18 pieces rendered excellent music and the home committee looked pleased.

Owing to previous bad weather last night's great crush was not expected by them and there was a delay in handling tickets which will not occur again, and new transformers are being placed in position today so that a thousand more lights will be had this evening.

As a whole it is the best carnival company ever in Paducah and the best conducted.

The program for Deal's band, in the Palm Garden, tonight and tomorrow be:

VISITORS WERE WELL PLEASED

Return to Nashville and Will Bid for Street Paving.

The Bitulithic Compound Can Be Used in Paducah with a Concrete Foundation.

WILL BE CHEAPER THAN BRICK

Messrs. George Ingram, of Nashville, and George Castle, of New York, who made an inspection of the streets of Paducah yesterday with a view to deciding on the advisability of using bitulithic compound for street paving, returned home last night well pleased with Paducah. They stated that they would certainly be prepared to make a bid when the Board of Public Works advertises for bids for paving the streets out of the \$150,000 bond issue.

The visitors were taken over the city by City Engineer Washington President Noble and Mr. S. A. Fowler, the latter two of the Board of Public Works, and made a close investigation of the soil, gravel, etc.

It is understood that they came to the conclusion that the city soil makes it inadvisable to use as a base for the bitulithic paving the crushed stone in Nashville, and rolled gravel would not be solid enough. Concrete, however, which is used as a base, or foundation, for the brick streets, may be used for the bitulithic street, and will make an excellent one.

The gentlemen stated that they did only first class work, guaranteed for five years under a heavy indemnity bond, and could not afford to put down anything but the best, on account of desiring to establish the excellence of their paving material. They are confident that they can build the streets cheaper than the brick streets, or at any rate as cheap, and think the city would be much better satisfied.

Members of the Board of Public Works seem favorably inclined to the bitulithic paving for our streets, and as the work is protected by five year guarantee, and has made a good showing wherever it has been used, they have no hesitancy about using it if the bids are low enough to justify it.

The Board of Works, when it advertises for bids, will ask for them on both brick and the bitulithic paving.

AFTER GRAFTERS

TWO GIVEN THIRTY DAYS ON THE CHAIN GANG TODAY.

Judge Sanders took drastic steps against three grafters today. They were George Douglas, James Flannigan and James Brooks, who were arrested for drunk and disorderly conduct. One claimed to be crippled, but it is said his misfortune is a deception, and he can jump and run about as well as anyone. Another man claimed to have a crippled elbow, and they are all thought to be professional beggars.

Brooks was fined \$1 but the other two were in addition given thirty days in the city prison.

ICE BUSINESS

IT HAS BEEN VERY DULL FOR THE PAST EIGHT MONTHS.

Local officers of the ice company report that the ice business in Paducah has for the past eight months been the dulllest ever known. Despite the large increase in consumption in the city, there has been a decrease during the past eight months as compared with other years.

On account of the cool weather it has been much less this year than last.

Miss Nan Crossland, of Mayfield, will arrive in the city tomorrow to visit relatives and friends.

A BISHOP CHOSEN FOR KENTUCKY

Rev. J. E. Murray, of Baltimore Elected Yesterday.

There Were Only Three Nominees for the Honor—He May Not Accept.

IS A VERY PROMINENT MAN

Hopkinsville, Ky., May 18—On the second ballot yesterday afternoon the Rev. John G. Murray, of Baltimore, was elected Bishop of the Diocese of Kentucky. Of the clergy Mr. Murray received 11 and Dr. Mason 5 and Dr. Lloyd 2. Of the laity Mr. Murray received 17 and Dr. Mason 4. Dr. Mason spoke, thanking his friends and moved that the nomination be made unanimous, which was done.

The afternoon session of the Diocesan Council opened with the nomination of the Rev. Arthur S. Lloyd, of New York. He was placed in nomination by the Rev. Minnigerode. The first ballot at 2:10 resulted: Vote of laity, for John K. Mason 4, John G. Murray, 17; clergy, for Mason 7, Murray 9, Lloyd 2.

The president announced that 14 votes of the laity and 10 of the clergy would be necessary to elect a bishop.

The Rev. Charles E. Craik, of Louisville, presented the name of the Rev. John G. Murray, rector of St. Michael's and All Angels' parish, of Baltimore, in a brief but highly eulogistic speech. He was followed by the Rev. George C. Abbitt, rector of Grace church, of this city, who placed in nomination the Rev. John K. Mason, of Louisville. The Rev. Mr. Abbitt presented Mr. Mason's claims in a most masterly and convincing manner.

Mr. William A. Robinson, of Louisville, spoke at length in seconding the nomination of Mr. Murray, going into detail regarding his past record, and showing his qualifications. He also told of the visit of himself and two others to Baltimore for the purpose of investigating the qualifications of Mr. Murray and the highly satisfactory result of their trip.

At the conclusion of Mr. Robinson's speech Mr. Hunter Wood, Sr., of this city, rose and spoke briefly, but convincingly, in seconding the nomination of Mr. Mason.

The date of the next meeting of the council was changed to May 14, 1905, to convene at Christ church in Louisville.

It is not certain Rev. Murray will accept as he has declined bishoprics in Alabama and Mississippi recently.

Yesterday Breckinridge Castleman addressed the council urging that action be taken looking to a worthy memorial to the late Bishop Dudley. He suggested an episcopate endowment fund of \$100,000, a movement, near to the great prelate's heart, and which, had he lived, would have been inaugurated at the celebration of thirtieth anniversary of the bishop's consecration. Mr. Castleman's motion that a committee to consist of three clergymen and three laymen be appointed to consider the matter of a suitable memorial and report at the next meeting of the council was unanimously adopted.

The finance committee reported the finances of the council in good condition, with all outstanding obligations paid and a balance of \$1,182.47 in the treasury.

EXPOSURE

To cold draughts of air, to keen and cutting winds, sudden changes of temperature, scanty clothing, undue exposure of the throat and neck after public speaking and singing, bring on coughs and colds. Ballard's Horehound Syrup is the best cure. Mrs. A. Barr, Houston, Texas, writes, Jan. 31, 1902: "One bottle of Ballard's Horehound Syrup cured me of a very bad cough. It is very pleasant to take." 25c, 50c, \$1.00. Sold by Du Bois, Kolb & Co., Paducah, Ky.

A BIG DEAL MADE AT OWENSBORO

American Tobacco Company Buys Much of the Weed.

School Book Commission Met—Court in Session at Cadiz.

AND OTHER KENTUCKY NEWS

Owensboro, Ky., May 18—The American Tobacco company has closed a deal for the entire purchase of tobacco of three of the largest tobacco factories in the city. F. E. Birk & Co., O. E. Birk and A. C. Tompkins & Co. The sale comprises about 3,000 hogheads of Green River strips. The price paid is private. It is said that negotiations are on for the taking over of the purchases of two or three other factories.

SCHOOL BOOK COMMISSION.
Frankfort, Ky., May 18—The state school book commission met yesterday afternoon to open bids for furnishing school books to the common schools of the state for a period of five years.

There are but five bidders for the contract, and but two of these have submitted bids for the full list of books in use in the schools of Kentucky. These bidders for the full list are the University Publishing company, of New York, and the American Book company, of Cincinnati. Other bidders are the Silver-Burdette company, of New York, which bids on books on English composition, physiology, civil government, arithmetic and copy book; the Globe Publishing company, of New York, which bids on copy books alone, and the National Publishing company, of Louisville, which makes a similar bid.

Under the law it is the duty of the commission to submit samples of these books to the various county school book commissions for their consideration, and after 30 days adopt for five years the books which have been adopted by the greatest number of county boards.

COURT AT CADIZ

Cadiz, Ky., May 18—The May term of the Trigg circuit court is in session here with Judge Thomas P. Cook presiding. There are on the docket three felony cases, 64 misdemeanors, 37 old common law cases, 15 common law appearances, 78 old equity cases and 12 equity appearances. The most important case is the Lawrence Willis trial. He is charged with the assassination of his uncle, Lieutenant W. B. Johnstone, at Canton, in March, 1903. Willis was given a life sentence in the penitentiary last February but was granted a new trial. He will be represented by Hon. Charles K. Wheeler, of Paducah; Judge James Breathitt, of Hopkinsville, and Sims and Thomas and John W. Kelly, of the local bar. Commonwealth's Attorney Denny P. Smith and County Attorney John C. Dabney will conduct the prosecution. The trial is set for Saturday.

TO MARRY AT FULTON

Fulton, Ky., May 18—Cards are out announcing the marriage of Mr. Dee Gholson to Miss Bertha Daisy Crittenden, daughter of Mrs. Ida Nooner. at 9 p. m., Wednesday, June 1, at the home of the bride, Rev. W. G. Eldred officiating.

Miss Crittenden is one of Fulton's most popular girls.

Mr. Dee Gholson is a prominent young business man, proprietor of the American cafe.

DEATHS IN TRIGG

Cadiz, Ky., May 18—During the past two days Trigg county has lost four of her oldest and most highly respected citizens. They are: Esquire James Mitchell of Cerulean Springs, 85 years old; Mr. John J. Footch, of four miles west of here, 75 years old; Mrs. Lottie Vinson, of Canton, in her 85th year, and Mrs. Polly Laurence, about 75 years old, Donaldson creek.

Mrs. Vince McCool, of near Canton, also died.

A SETTLEMENT NEAR

Central City, May 18—A settlement between operators and miners of district No. 23, has been practically agreed upon, which will be in effect and acceptance by the miners of the reduction of 4½ per cent of last year's scale of wages. This settlement means another prosperous year for Central City, and its effect has already been felt by the merchants and other business men.

HOME RUN WON GAME.

Vincennes, Ind., May 18.—Percival practically won yesterday's game for Vincennes by knocking a home run when bases were full. The game was played in a drizzle, and with muddy grounds, but there was a large crowd out and it was decided to immediately enlarge the grand stand. Vincennes made 5 runs and 9 hits, with 2 errors to its credit, while Paducah got 2 runs, 3 hits and also 2 errors. Grangle and Lemon and Brabie and Land were the batteries.

Paducah seems to have a pretty fair club so far as fielding is concerned, but it is deficient in the hitting department. The result of every game lost with possibly few exceptions, will show that what we need is hitters. That's what wins Cairo her games. They all hit, and they hit hard. They sometimes start in in the ninth inning and rap out a victory after the game has seemingly been lost. Good fielding does not count unless a little hitting goes along with it.

This morning Contractor Kirkpatrick with eight carpenters went to work on the Wallace park baseball grounds and it is expected will finish the grand stand within a few days. The work will be rushed and President Jackson hopes to have it ready by Sunday a week.

Lon Duiguid has gone with the Cherokee Indians to play ball. He has been with the L. A. L. team here and is an excellent catcher first baseman and pitcher.

The grand stand will be completed as soon as possible, and it is expected that the crowds will be larger as a result.

Wonders never cease. Both, Hopkinsville and Clarksville have now won a game.

Old Cairo is still at the top and hasn't lost a game.

MRS. BARTON COMING

WILL WITH THE POPULAR MASTER MECHANIC PERSONALLY THANK PADUCAH MEN.

Mrs. T. F. Barton, of Chicago, will arrive in the city today to personally thank the employees of the local shops and road department of the I. CONSUMED BY A FIRE THAT WATER WILL NOT QUENCH

Only those who have experienced the awful itching and burning of Eczema can know how it feels to be consumed by the blistering, fiery acids oozing out through the pores of the skin. There is no other skin disease that compares in severity with Eczema. It begins as a mere redness of the skin, or comes in little watery blisters and pimples, discharging a thin sticky fluid which hardens into scabs and scales, leaving a raw and inflamed surface as they peel off, while the itching is almost intolerable. Eczema is the most vicious and violent of all skin diseases, appearing in many different forms; the dry and scaly kind with brownish white crusts, which gives the skin a rough, leathery appearance, and producing sometimes painful fissures and sores. In other cases the skin has a swollen, moist appearance, with occasional profuse discharges of watery matter. But all the varieties and types of this aggravating disease are akin and are caused by impure blood and an over-acid condition of this vital fluid that seems to set the skin on fire, kindling a flame that water will not quench, and an itching, stinging eruption that lotions, soaps, salves and powders cannot suppress. As the poisonous acids in the blood increase the eruption spreads and becomes more angry looking, and the itching and burning more unbearable. Eczema is the commonest of all skin diseases, and the most aggravating and treacherous, disappearing at times, then returning suddenly and in a severer form than ever. It is particularly bad in warm weather, because at this season the skin is reacting and the blood is making extra effort to throw off the morbid secretions and acid impurities that have been accumulating during the long winter months, and there is an overflow of the acid matter and acid poison through the pores, producing irritation and redness of the skin and all the terrors of Eczema. Soothing applications are beneficial and advisable, but not curative, because the seat of the disease is in the blood, and external or surface treatment cannot change bad blood into good blood or purge the system of impurities. Only a blood purifier can do this, and while treating the skin the blood must be looked after or the disease is sure to return when the blood is again overcharged with acids.

S. S. S. to purify and cleanse the blood, and some non-irritating, soothing salve or lotion, is the proper treatment for all forms of Eczema. S. S. S. has made some remarkable cures of this stubborn skin disease—cases that had become chronic from long neglect or wrong treatment. S. S. S. is the only guaranteed strictly vegetable blood remedy. It is without a single mineral ingredient, but of medicinal roots that come from the fields and forests or Nature's store-houses. S. S. S. combines both purifying and tonic properties that enter into the circulation and destroy the impurities, and at the same time tone up the general system. Skin diseases are, after all, only symptoms of impure and vitiated blood and external signs of disordered systems, and when you are the blood the eruptions disappear.

If you have Eczema or any blood disease, sore or eruption, write us and our physician will gladly advise you and furnish any information desired without cost to you. Book on the Skin and its diseases free.

AND TWO GIRLS TO WALK

Galveston, Tex., May 18—Having
made restitution of a \$250 diamond
ring, Paul Clarkson escaped prosecu-
tion. Restitution was made with the
aid of two surgeons, an x-ray machine
and a scalpel.

The stone, after being located by
means of the machine, was removed
from Clarkson's stomach and turned
over to the owner. The owner paid
for the operation and the prisoner was
released.

While he was being searched the
stone, which he held in his mouth,
slipped down his throat by mistake.
Clarkson is recovering from the opera-
tion.

A \$75,000 PREMIUM.
Baltimore, Md., May 18—A big in-
surance policy, on which the premi-
ums amount to \$75,000, for the
protection of the Louisiana Purchase
exposition from claims on account of
accidents on the fair grounds at St.
Louis, resulting from its own acts or
those of employees, has been issued by
the Maryland casualty company. The
insurance company, in figuring on the
liabilities, estimated that 30,000,000
people would attend the exposition.
The policy does not cover the liability
of exhibitors or concessionaires. It
is limited to the avenues of the ex-
position grounds and the aisles of build-
ings. It does not cover spaces or
buildings not under control of the ex-
position management, such as state
and foreign buildings.

OBJECT TO WHIPPING.

Evanston, Ind., May 18—Citizens
of Owensville, Ind., were at Prince-
ton consulting attorneys with a view
of filing an injunction suit against
Prof. T. B. Leslie of Owensville to
prevent his being retained as superin-
tendent of the Owensville schools.
Prof. Leslie created a sensation some
time ago by whipping 31 pupils in one
day in the room of Miss Bertha Mont-
gomery. Miss Montgomery went in-
sane a day after the whipping and
died about a month ago in the insane
asylum.

22-YEAR ENGAGEMENT ENDS.

Chicago, May 18—After an engage-
ment of 22 years and an acquaintance
of 38 years Henry S. Osborne and
Miss Mary E. Waller, of this city,
were married today. Both are wealthy.
The wedding marks the culmination
of a romance begun just after the
close of the civil war, when Henry S.
Osborne, then a young lawyer, settled
in Chicago. The couple, it is said,
postponed their marriage from year to
year because each had a mother to
care for.

WILL ROW 3800 MILES.

New York, May 18—Two brawny
sailor men are planning to row from
New York to St. Louis, without leav-
ing their boat for an instant on the
trip. So far as distance is concerned
the feat surpasses the traversing of
the Atlantic ocean. From this city to
St. Louis via the Atlantic ocean,
Gulf of Mexico and the Mississippi
river is, approximately, 3800 miles.
The distance to England is little more
than 3000 miles. The two are Arno
Deltis, 27 years old, and Emil Wieser,
49. They hope to accomplish the jour-
ney in 45 days.

TO WALK TO ST. LOUIS.

Wabash, Ind., May 18—Three girls
who are working in a newspaper office
in Rochester, Ind., have made a
wager to walk to St. Louis in 25
days, and not have even a penny when
they leave home. At St. Louis they
are to attend the world's fair for three
days and then ride home in palace
cars. They hope to be successful in
furnishing their experiences to the
newspapers along the route. The trip
is to be made beginning September 1.

FEATHERWEIGHTS TO FIGHT.

New York, May 18.—Jimmy Britt
and Young Corbett have agreed to
fight again and will cross arms in a
battle for the featherweight champion-
ship of the world in San Francisco.
No date has been set for the contest,
it being agreed that the bout take
place not later than December 1.

SMALL-POX NOW IS WELL STAMPED OUT

A Few Cases in Union County are Under Control.

The State Board of Health Has De-
cided to Go After the Quacks
Now.

\$963,750 LOSS FROM SMALLPOX

At the annual meeting of the Ken-
tucky state board of health, at Louis-
ville, with every member of the board
present, the smallpox situation in the
state during the past year was dis-
cussed. All agreed that the disease
had been less malignant than in any
year since 1897.

There is some trouble at Madison-
ville with smallpox, just now, but
President J. N. McCormack, secretary
of the board, read letters from the
Union county board of health in
which information was given that the
outbreak was under control.

Preliminary preparations were made
for putting into operation the law
passed at the last session of the
legislature that certificates to practice
medicine can be obtained in the
future only by successfully passing
an examination given by the state
board of health. Heretofore the
diplomas of the various medical col-
leges were sufficient, but the new
law makes more severe requirements.
The act takes effect July 15.

The report of Secretary McCormack
showed that the condition of the
health of the state had been entirely
satisfactory during the past year. He
stated that the decrease in the number
of smallpox cases had been especially
noticeable.

Dr. McCormack reported unfavor-
ably, however, on the conditions as to
consumption, typhoid fever, infantile
diarrhea, diphtheria, scarlet fever and
other domestic pestilences. He la-
mented the fact that the state had not
sufficient appropriation for protection
against these common preventable
diseases.

The report showed that the 13,305
cases and 1,579 deaths from smallpox
last year had necessitated a loss to the
community of \$963,750.

The state board of health consists of
the following members:

Joseph M. Mathew, M. D., Louis-
ville, president; William Bailey, M. D.,
Louisville; George T. Fuller, M. D.,
Mayfield; L. L. Robertson, M. D.,
Middlesboro; Chester Mayer, M. D.,
Louisville; L. A. Shirley, M. D., Win-
chester; J. N. McCormack, M. D.,
Bowling Green, secretary.

CROP REPORT

FAIRLY GOOD PROGRESS MADE DURING THE WEEK PAST.

Growing crops made fairly good
progress during the first part of the
week, though the nights were rather
cool. Light to moderate showers were
general on the 18th and were very
beneficial, but there followed a decid-
ed drop in temperature that checked
the growth of plants. Light frosts
occurred in many localities on the
15th, but it is thought that no serious
damage will result. The weather and
the condition of the soil were favor-
able to farm work, which is now, con-
sidering the backwardness of the
season, well advanced.

Wheat continues to improve; in a
good many localities in the western
section and very nearly an average
yield will be made.

Corn is coming up slowly. Some
of the early planted failed to germi-
nate and cut worms are destroying the
young plants, so considerable re-
planting will be necessary. Planting
is about completed except on low-
lands, and many fields are receiving
the first cultivation.

Tobacco plants are small, but gen-
erally healthy. Transplanting has
begun in some of the southern coun-
ties.

Oats, rye, clover, grasses, pastures
potatoes and gardens are in fairly
good condition.

Hemp is doing well, except that in
some localities cut worms are damag-
ing it.

In some of the principal fruit-grow-
ing countries fruit is promising, but
as the whole crop will be short, es-
pecially peaches and early apples. The
berry crop will probably be about as
good as usual.

AGREEMENT MADE BY THREE ROADS

To Control the Transportation of Tobacco.

Illinois Central, L. and N. and L. H.
and St. Louis to Shut Out
Atlantic Lines.

IT AFFECTS THIS SECTION

The Louisville and Nashville, the
Illinois Central and the Louisville
Henderson and St. Louis railroads
have formed an air tight agreement to
protect the exportation of tobacco from
the lower Ohio river territory, includ-
ing this section, acting in favor of
the ports of New Orleans and Pensa-
cola as against the North Atlantic
ports. The effect of the agreement is
that all shipments of English strips
for export must be handled to the
North Atlantic lines at Louisville and
Cincinnati by the roads in the con-
tract, and that no bills of lading will
be issued for shipments solicited by
the North Atlantic lines on through
contracts. In cases where those roads
wish to carry the business it will be
necessary for them to notify one of
the three local lines of the lower Ohio
territory, and the line so notified will
bring the tobacco to Louisville or take
it to Cincinnati, as the case may be.
It will at those points turn the ship-
ment over to the road carrying it for
export upon the payment of the arbi-
trary through rate established by the
agreement, which is less than the
local, but which the North Atlantic
lines claim forms a combination that
is so high as to be prohibitive.

The agreement of the Louisville and
Nashville, the Illinois Central and
the Louisville, Henderson and St.
Louis has been under consideration for
some time.

The Pennsylvania, the Big Four,
the Baltimore and Ohio Southwestern,
the Chesapeake and Ohio and the Mo-
non, the fast freight lines operating
over those systems, are the companies
from whose hands the business is
taken, if such is the result of the
ruling, and it is said that retaliatory
measures are being considered by the
traffic officials of those lines, effecting
other commodities which are billed on
through rates from north of the Ohio
river to points in the south on the
three roads which have taken the arbi-
trary stand in regard to tobacco.
The action of the three roads in regard
to Southwestern Kentucky applies to
all shipments to London, Liverpool
and Glasgow from Henderson, Owens-
boro, Cloverport, the Green River
country and all territory included
under the term "lower Ohio river."

The volume of the commodity over
which the agitation has arisen is be-
tween 15,000 and 20,000 hogheads,
all of which usually moves for export
during the months of May, June,
July and August.

The situation is complicated beyond
its usual intricacy this year, for the
reason that the season is very late, and
just as the growers were thinking of
making their export contracts the an-
nouncement came that England has
imposed an additional duty of 6 cents
a pound on all imports of English
strips, while the unstamped tobacco
is left without additional impost.
The trade in the United Kingdom at
once took up the action of the govern-
ment, claiming that snap action, such
as had been taken, left the tobacco
dealers open to immense losses, and
that, while the duty was thought to
be in itself unjust, the trade is en-
titled to warning before the added
duty becomes effective. The ruling
was appealed, and is now under con-
sideration by the chancellor of the ex-
chequer. The tobacco trade is daily
looking for a decision in the case, and
little of the lower Ohio crop will move
until the chancellor's position is an-
nounced.

A great deal of tobacco is shipped
from this section, and the above agree-
ment means it will go to Europe via
New Orleans, instead of via New
York.

After several months delays and
suspension of work, the block on
Third street between Kentucky and
Broadway has been paved, and the
people on the street are very glad. As
soon as rolled and the brick are placed
between the car tracks, the street will
be ready to receive.

Mr. Robert L. Reeves has returned
from Louisville.

Written at Random.

Two prominent attorneys are telling
a good joke on each other. A few
years ago they were engaged to prose-
cute together a damage suit against
the street car company for striking a
man's wagon. They held a confer-
ence, and one of them said: "Why, I
know of my own certain knowledge
that those cars go 15 or 16 miles along
there. I have seen them and timed
them."

They went along and made it pretty
hot for the street car company. Time
passed and one of the attorneys became
counsel for the other side, and the
same man was hurt again and brought
another damage suit. It happened
that the former partner of the attor-
ney brought the suit, and they
chanced to meet down town before it
came up.

"We'll have no trouble beating
you," declared one. "You know that
car wasn't going fast."

"I don't know anything of the
kind," retorted the other with a wink,
"but I do know you once told me that
of your own personal knowledge the
cars went 15 miles an hour along that
same place, and that you had timed
them, and I think I shall use you for
a witness."

They both then laughed knowingly
and dropped the subject.

...

Yet the work of this marvel fixing
for a moment the attention of the
world is only the work of the train
dispatcher, who, sitting under his
night lamp blindfolded by four white
walls, his right hand on the key and
his eyes fastened on the figures of a
train sheet, forces his mind, when
other men are asleep, to visualize the
long, winding miles of his division,
its trains, its passing tracks and
curves its owners and stations, its
semaphores and switches, says the

Outlook. At 20 points in the dark-
ness of his night, and depending for
safety on the clear, instant workings
of his mind, are swiftly moving
trains of Pullman cars loaded with
sleeping men and women whose wak-
ing rests with him alone. This man
is no genius; he is the plain, everyday
American that one meets in the street
car or in the crowd. He cannot choose
his days for playing his games; he
plays every day from 8 a. m. till 4 p.
m. or from 4 till midnight; or he
takes his transfer at midnight and sits
in his chair through the last watches
of the night. He cannot play 20 game
and rest; he must for eight hours be
ready steadily for every game that come
over the wire against him, whether
storms, blockades, breakdowns or
wrecks. He cannot load up with
coffee or with strong cigars for the
strain of one night, because he must
meet the same conditions on the next
night and on every night. No one
marvels concerning him; no one cod-
dles him; no one pays any attention
whatever to him, until after perhaps a
thousand or five thousand such nights
have successfully passed he makes
one night a mistake, a fatal mistake,
and from those people who themselves
never forget anything a cry for ven-
geance goes up. Other men may make
mistakes; not the dispatcher. His
nerve must be iron and must never
flag, never wear. Sitting in his den,
he directs his train movements every
day and his life; burned out like the
electric current at his key is one of
the little sacrifices we exact as the
price of our living in the country and
doing business in the city, of crossing
a continent in days instead of weeks,
of getting our letters with the speed
of telegrams and our papers and mag-
azines wet from the distant press.

The regular Gun Club practice
will take place tomorrow afternoon,
and the \$100 match between Messrs.
Ben Weille and W. B. Kennedy will
be pulled off.

MOSTLY DECREASES

SHOW NO RAILROAD EARNINGS IN MAY.

The gross earnings of 19 roads for
the first week in May were \$3,874,937,
against \$4,111,343 for the first week in
May, 1903, a decrease of \$236,415.
Four roads show increases and 15 de-
creases. Since July 1 the roads re-
ferred to above earned \$194,816,465,
an increase of \$10,542,173 over the
\$183,774,292 reported for the corre-
sponding period of last year. For the
longer period 13 roads show increases
and six decreases.

Mrs. Ann Sledd and Miss Effie
Black, of Murray, are visiting the
former's brother, Attorney George
Daiguid.

"Coffee=Heart"

40,000 members of the Commercial Travelers Accident Asso-
ciation, carry cards on which are printed "Medical and Surgical
Helps," by the Surgeon-in-Chief of the Association, paragraph 4 of
which says:

"FOR VERTIGO OR DIZZINESS— Please remem-
ber that Coffee often produces it; therefore when you have
congestion of the head, skin is yellow or you feel heavy about
the heart,—stop using Coffee."

Insurance Companies now refuse policies for "Coffee-heart" just
as they do for Consumption, Apoplexy or Morphine habit.

Because with most people Coffee weakens the heart, inflames
the Spinal Chord, and arrests the digestion of food,

"Postum" Food Coffee while correcting "Coffee-heart," rebuilds
Brain and Nerve tissue up to their normal condition, causing them to
feel as good all day as Coffee makes them feel for a few minutes in the
day just after drinking it.

"Postum" is made from the outer coats of Wheat, which are
rich in Phosphate and Potash, the readiest Brain and Nerve food that
Nature has provided.

These outer coats (being sifted from Flour in the milling) can
not in daily Bread, make good the ravages of Coffee.

But when, in Postum, they are boiled for 15 minutes, the Phos-
phates are freely extracted from the Wheat fibres, just as soup is ex-
tracted from tough meat or bone, ready for prompt assimilation.

It is easy to switch from Coffee, because "Postum" has the de-
licious flavor, and rich aroma, of fine old Government Java.

A ten days trial will show wonderful results.

MORE ATTEMPTED ROBBERY.

The auditors' agent seems to be carry-

ing on in the name of the common-

wealth the skin game perpetrated here

recently in collecting back taxes that

had already been paid, all over the

state with varying success. Very

little stir resulted here, although

there seemed to be grounds for a big

upheaval. In Owensboro he was met

by a crowd of indignant property

owners and an injunction, and held no

safe. The Inquirer said of the affair:

"In the meantime several hundred

irate and indignant property owners

had gathered at the courthouse wait-

ing for the revenue agent to get to

business. Many of them produced old

receipts showing they had paid their

taxes on the property advertised. All

those producing receipts had their

property marked off. In many in-

stances it was discovered that the

sheriff was at fault and had failed to

make the proper credit, as many of

the receipts produced were signed by

former sheriffs. In spite of the in-

junction, however, many owners paid

the back taxes on their property and

were given receipts signed by the

revenue agent. Several of those who

paid purchased their property believ-

ing it to be free from all incumbrances,

but others admitted not having paid

the tax. One old man in the crowd

produced papers showing that he had

paid taxes on his property which had

been advertised for sale since 1861."

It is a pity there was not some one

here sufficiently interested to prevent

the sale, at which nearly \$1,000 was

collected, much of which represented

taxes already paid. Of course the

auditor's agent himself is not to

blame, as he only does his duty and

is furnished with a list from the au-

ditor's office at Frankfort. When the

state undertakes such extortion, how-

ever, it is a good time for an investi-

gation of some sort.

THE GROWTH OF THE NEWS-

PAPER.

St. Louis is now filled with news-

paper men—3,000 in all—some at-

tending the national editorial associa-

tion, and others the international

Press congress. Such a large and

representative body of the men who

would the nation's thought probably

Perfect Health
for All Women.Zoa Phora Will End Your Troubles
and Make Your Life a Joy—It Has
Always Done This for Women
and Always Will.

FREE TRIAL BOTTLE TO ALL WOMEN.

No matter how many doctors have tried and

failed, no matter how many remedies you have

used without results, Zoa Phora will cure you

and your cure will mean something. It will be

complete and perfect and permanent. It always

has done this and always will. All the women

who have suffered from any of the diseases pecu-

liar to their sex and who have used Zoa Phora

are to-day rejoicing in the security of perfect

health and all the happiness it brings.

Zoa Phora cures all diseases and irregularities

of women, displacements, leucorrhoea, sup-

pressed and painful periods, flooding, piles, kid-

ney, bladder and liver troubles and regulates

the change of life. Not a mail arrives that does

not bring letters from women who have been

cured of some of these terrible diseases and

whose lives have been made happy by the noble

and wonderful work of Zoa Phora.

Mrs. George Sidle, McClure, Ohio, R. F. D.

No. 1, says: "I was so nervous and broken down

that I could not do my work. I doctored with

two of our home doctors, and they said I had

heart trouble. I had spells with my heart when

it would beat so hard and then I would faint away.

I received a sample bottle of Zoa Phora, which I

took according to directions, and thought it was

just what I needed, so I threw the doctor's

medicine away and got a large bottle of Zoa

Phora. It helped me so much that I bought two

more bottles, and now I am well and strong. I

do not have the spells with my heart any more.

"If anyone calls in person or writes, I will

give them the particulars in my case. I

hope this will help induce some suffering

woman to try Zoa Phora."

Write the Zoa Phora Co., Kalamazoo, Mich.

for a free trial bottle and copy of their illustrated

medical book, "Dr. Pengelly's Advice to

Women." The doctor will gladly give free

medical advice when needed. Zoa Phora is for

sale at \$1.00 a bottle by all druggists.

of the world, and it calls attention to

the vast and growing influence of the

greatest modern educator.

The press, in its larger aspect, may

be called an institution conducted by

the people for the people, remarks

the Globe Democrat. It came into

existence through a popular demand

and is carried forward on the strength

of popular support. Its active work-

ers are trained in contact with the

people. It is attentive to all matters

of current interest and responsive to

public opinion. Its columns are a

forum where earnest and timely views

receive a hearing. A broad survey of

the development of the press for the

last 50 years offers nothing that can

give comfort to the pessimist. Meas-

ured by the growth of the newspaper

the progress of the world has been

steadily and rapidly in the right di-

rection. Especially in the business

of news gathering has there been an

immense advance. In its earliest

stage the journal was strong in social

and political discussion. But news

facilities were necessarily limited be-

fore the days of railroads, telegraphs

and swift transportation by land and

sea. Distance up and down the earth

has been conquered during the last

half century, and the same period has

witnessed the rise of the newspaper

as an almost momentary register of

events occurring anywhere on the

face of the planet.

The United States court of appeals

has just decided a point which will

have a far reaching effect among rail-

road employees. It says that a tele-

graph operator for a railroad com-

pany and a fireman on the road, are

"fellow servants," and that death re-

sulting from a mistake of the former

was a risk run by the latter, and was

not a ground for damages against the

railroad company. This principle as

laid down by the highest court in the

United States will probably result in

the throwing out of court of many

suits for damages for death or injury

of employes growing out of the negli-

gence of employes.

The Kentucky insurance agents who

have refused to answer the questions

of the inquisitive insurance commis-

sioner are kindly allowed thirty days

more in which to keep refusing.

The Democratic papers are quoting

"one of Senator Platt's followers" as

saying the outlook in New York is

gloomy. He probably referred to the

Democratic outlook.

Those who take a pride in Paducah

do not want any speckled sidewalks

on our principal streets. Make them

all of one material—either all brick

or all granitoid.

Appendicitis promises to lose out as

a "fashionable disease," now that

some of the prominent doctors are

claiming operations are unnecessary.

CABMEN STRIKE

NONE WILL DRIVE AT FUNER-

ALS DURING DISAGREEMENT.

Cleveland, May 18.—All the union

conditions. The leaders declare that

none of the men will drive carriages at

funerals until the strike is ended.

"DO IT TODAY."

The time worn injunction, "Never
put off 'til tomorrow what you can do
today," is now generally presented in
this form: "Do it today!" That is
the terse advice we want to give you
about that hacking cough or demoral-
izing cold with which you have been
struggling for several days, perhaps
weeks. Take some reliable remedy
for it today—and let that remedy be
Dr. Boschee's German Syrup, which
has been in use for over thirty-five
years. A few doses of it will un-
doubtedly relieve your cough or cold,
and its continued use for a few days
will cure you completely. No matter
how deep seated your cough, even if
dread consumption has attacked your
lungs, German Syrup will surely effect
a cure—as it has done before in thou-
sands of apparently hopeless cases of
lung trouble. New trial bottles, 25c;
regular size, 75c. At all druggists.

ABOUT JULY 15TH

Paducah May Purchase Old Fort
Property.The Option to Be Signed This Week—
Money to Be Taken From Bond Sale.Mayor Yeiser will this week sign
the option to the Old Fort property
the city proposes to buy for the estab-
lishment of the new city hospital, but
it is likely that no definite action to-
wards buying the property will be
taken before July 15 when it is
thought the bonds will be floated and
the money be in the treasury.The bonds are advertised for sale
June 1 and it is thought will require
one month or more to float them, and
this accomplished will leave nothing
in the way of closing the deal. The
option will hold the property for the
city and after being signed by the city
there will be no necessity for haste to-
wards closing the contract for the
property.

Suicide

What Drives so Many
People to This Dark
Path, and Why.If a man—before taking a step made
possible only by brooding and despair—
would consider that his feeling of dark-
ness is only a question of nerves—he
would be saved.For, the depression leading to self de-
struction is truly a disease of the nerves.
This nerve depression or melancholy
is often accompanied or preceded by
nervous or constant Headache, Dizziness,
Dullness, Loss of Memory, Sleeplessness,
Muscular Twitchings, Nervous Prostra-
tion, Spasms, Brain Fag, and other
signs of serious nerve trouble.

The cure is Dr. Miles' Nerveine.

It is a nerve medicine for weak nerves

Telephone License Case Has Never Yet Been Docketed.

It Can Be Tried at This Term Only
By Agreement of Attorneys.

It is possible the writ of injunction taken out by the East Tennessee Telephone company against the city to prevent the collection of two license taxes, will not come up for trial until October. When the suit was filed Judge Reed granted a temporary writ of injunction, which will remain in effect until the trial of the case.

A demurrer filed by the city to the petition was overruled by the court a few days afterwards, virtually deciding in favor of the telephone company, but Judge Reed subsequently ascertained that the case had never been docketed, and had the order overruling the demurrer stricken, leaving the case where it was at first when the temporary writ was granted.

When suits are filed they must be filed by a certain time to be tried at the ensuing term of court, and the telephone case was not filed in time to be tried at this term except by agreement, and the attorneys have not agreed to have it docketed. If no agreement is reached the case cannot be tried until October.

The city has instructed the treasurer not to take the \$100 license charged the company until the case is settled, its object, according to an official, being to leave the city free so if the court decides that there is double license charged, and that the city has a right to impose either one of the licenses, it may exact that of \$1 on each pole. This would make the license about \$1800 a year, and impair the telephone service, as many lines would not pay the \$1 on each pole. It is practically certain, however, that the same principle of law which resulted in the federal court granting an injunction against the city preventing it from collecting a tax on telegraph poles will prevent it from collecting a license on telephone poles.

WOULDN'T PAY

LOCAL MILITIAMEN DECLINED
TO LIQUIDATE FINES.

Lieutenant Percy Jordan has personally notified each member of the Wheeler Guards who was fined for breach of discipline, of the action taken in the court martial, and has reported to Captain James Caldwell who will make a report to his superior officers.

Every member fined refused to pay the fine and this report will immediately be forwarded to Governor Beckham who is expected to send an order for confinement in jail. The fines must be paid or the boys will have to stand a jail sentence, according to the military authorities, but it is said by some that no jail sentence can be legally imposed in such cases.

A CARD.

Much has been said about my inability to publish a reliable city directory, and insinuations made that it was compiled from the old directories and postoffice records, all of which I positively deny. I compiled my directory from a house to house canvass of the city, and all I ask is a careful and impartial comparison with any other directory. I will ask those who are undecided to give me an opportunity of making this comparison, and I have no fear of the result. To those who have bought one of my books, I will say that you have a directory that is as complete as any other ever offered for sale, and by buying another you will not be benefitted in the least. All things being equal I believe every right spirited business man will give home production the support it should have. Every opportunity has been had and utilized to show up the little errors in my directory, and now the tide has changed, and he who laughs last, laughs best. Very respectfully,
FRED B. ASHTON,

INSURANCE COMMISSIONER EXTENDS TIME 30 DAYS.

Monday was the date fixed by Insurance Commissioner Henry Prewitt, of Frankfort, in a circular letter addressed to life insurance agents throughout the State to revoke their licenses unless they on or before May 16 should answer under oath a long list of questions put to them by him in regard to violating the anti-rebate insurance law. Commissioner Prewitt revoked no license, but, on the other hand, a number of agents over the state refused to answer the questions. In compliance with a request of a representative of a large insurance company Commissioner Prewitt has extended the time in which the agents must answer his questions thirty days. It is believed that the matter will not be pushed by the commissioners. Many of the agents throughout the State have been advised by their attorneys to the effect that Commissioner Prewitt has no authority to compel them to answer any question that would incriminate them.

FELL FROM WINDOW.

Clinton, Ky., May 18—Mr. W. H. Dupree of Columbus, fell from a second story window at the residence of Dr. J. M. Peck in Arlington, and was badly hurt, though no bones were broken. Mr. Dupree is quite an old gentleman and is the father of Mrs. Peck.

Assistant Postmaster James Hurt of Murray, was in the city today.

"I am going straight into town. Can I do anything for you?"
"Nothing. I thought you might like to know what awaits you there. The city is greatly stirred up. The corner's jury in the Jeffrey-Moore case has just brought in a verdict of the same, the last representative of the great Moore family was quietly driven away."

"Ah!" he ejaculated, slightly taken aback for one so invariably impassive. "And to whom is the guilt of this crime ascribed?" he presently ventured. "There was mention of no name, but the opprobrium naturally falls on Miss Tuttle."

"Miss Tuttle? Ah!"
"Since Mr. Jeffrey is proved to have been too far away at the time to have fired that shot, while she—"
"I am following you!"

"Was in the very house—at the door of the library in fact—and heard the pistol discharged, if she did not discharge it herself—which some believe, notably the district attorney. You should have been there, Mr. Moore."

He looked surprised at this suggestion.

"I never am anywhere but here on the 23d of May," he declared.
"Miss Tuttle needed some adviser."
"Ah, probably."

"You would have been a good one." "And a welcome one, eh?"
"I hardly thought he would have been a welcome one, but I did not admit the fact. Nevertheless he seized on the advantage he evidently thought he had gained and added, mildly enough, or rather, without any display of feeling: "Miss Tuttle likes me even less than Veronica did. I do not think she would have desired, certainly she would not have desired, my presence in her councils. But of one thing I wish her to be assured, her and the world in general. Any money she may need at this—this unhappy crisis in her life, she will find amply supplied. She has no claims on me, but that makes little difference where the family honor is concerned. Her mother's husband was my brother—the girl shall have all she needs. I will write her so."

He was moving toward his carriage. "Fine turnout?" he interrogatively remarked.

"I assented with all the surprise—with all the wonder even—which his sublime egotism seemed to invite.

"It is the best that Downey could raise in the time I allotted him. When I really finger the money, we shall see, we shall see."

His foot was on the carriage step. He looked up at the west. The sun was almost down, but not quite. "Have you any special business with me?" he asked, lingering with what I thought a surprising display of consciousness till the last ray of the sunlight had disappeared.

I glanced up at the coachman sitting on his box as rigid as any stone.

"You may speak," said he; "Caesar neither hears nor sees anything but his horses when he drives me."

The black did not wink. He was as completely at home on the box and as quiet and composed in his service as if he had driven this man for years.

"He understands his duty," finished the master, but with no outward appearance of pride. "What have you to say to me?"

I hesitated no longer.
"Miss Tuttle is supposed to have secretly entered the Moore house on the night you summoned us. She even says she did. I know that you have sworn to having seen no one go into that house, but notwithstanding this, haven't you some means at your disposal for proving to the police and to the world at large that she never fired that fatal shot? Public opinion is so cruel. She will be ruined, whether innocent or guilty, unless it can be very plainly shown that she did not enter the library prior to going there with the police."

"And how can you suppose me to be in a position to prove that? Say that I had sat in my front window all that evening and watched with uninterrupted assiduity the door through which so many are said to have passed between sunset and midnight—something which I did not do, as I have plainly stated on oath—how could you have expected me to see what went on in the black interior of a house whose exterior is barely discernible at night across the street?"

"Then you cannot aid her?" I asked.

With a light bound he leaped into the carriage. As he took his seat he politely remarked:

"I should be glad to, since, though not a Moore, she is near enough the family to affect its honor. But, not having even seen her enter the house, I cannot testify in any way in regard to her. Home, Caesar, and drive quickly."

I do not thrive under these evening damps."

And, leaning back with an inexpressible air of contentment with himself, his equipage and the prospect of an indefinite enjoyment of the same, the last representative of the great Moore family was quietly driven away.

CHAPTER XVII.

I MUST admit that it was not entirely owing to disinterested motives that I now took the secret stand I did in Miss Tuttle's favor. I clung to my convictions with an almost insensate persistence, inwardly declaring her the victim of circumstances and hoping against hope that some clever would offer itself by means of which I might yet prove her so.

Had Mr. Jeffrey's alibi been less complete he could not have stood up against the suspicions which now ran riot. But there was no possibility of shifting the actual crime back to him after the testimony of so frank and trustworthy a man as Tallman. If the stopping of Mrs. Jeffrey's watch fixed the moment of her death as accurately as was supposed—and I never heard the least doubt thrown out in this regard—he could not by any means of transit then known in Washington have reached Waverley avenue in time to fire that shot. The gates of the cemetery were closed at sundown. Sundown took place that night at one minute past 7, and the distance into town is considerable. His alibi could not be gainsaid. So his name failed to be publicly bronched in connection with the shooting, though his influence over Miss Tuttle could not be forgotten, suggesting to some that she had acted as his hand in the deed which robbed him of an undesirable wife. But this I would not believe. I preferred to accept the statement that she had stopped short of the library door in her suspicious visit there and that the ribbon tying, which went for so much, had been done at home.

Finding myself, with every new consideration of the tantalizing subject, deeper and deeper in the quagmire of doubt and uncertainty, I sought enlightenment by making a memorandum of the special points which must have influenced the jury in their verdict as witnesses.

First.—The relief shown by Mr. Jeffrey at finding an apparent communication from his wife hinting at suicide.

Second.—The possibility, disclosed by the similarity between the sisters' handwriting, of this same communication being a forgery substituted for the one really written by Mrs. Jeffrey.

Third.—The fact that, previous to Mr. Jeffrey's handling of the book in which this communication was said to have been hidden, it had been seen in Miss Tuttle's hands.

Fourth.—That immediately after this she had passed to the drawer where Mr. Jeffrey's pistol was kept.

Fifth.—That while this pistol had not been observed in her hand, there was as yet no evidence to prove that it had been previously taken from the drawer, save such as was afforded by her own acknowledgment that she had tied some unknown object, presumably the pistol, to her sister's wrist before that sister left the house.

Sixth.—That if this was so, the pistol and the ribbon connecting it with Mrs. Jeffrey's wrist had been handled again before the former was discharged, and by fingers which had first touched dust, of which there was plenty in the old library.

Seventh.—That Miss Tuttle had admitted, though not till after much prevarication and apparent subterfuge, that she had extended her walk on that fatal night not only as far as the Moore house, but that she had entered it and penetrated as far as the library door at the very moment the shot was fired within.

Eighth.—That in acknowledging this she had emphatically denied having associated the firing of this shot with any idea of harm to her sister; yet was known to have gone from this house in a condition of mind so serious that she failed to recollect the places she visited or the streets she passed through till she found herself again in her sister's house face to face with an officer.

Nine.—That her first greeting of this officer was a shriek; betraying a knowledge of his errand before he had given utterance to a word.

Ten.—That the candles found in the Moore house were similar to those bought by Mr. Jeffrey and afterward delivered at his kitchen door.

Eleven.—That she was the only member of the household besides the cook who was in the kitchen at the time, and that it was immediately after her departure from the room that the package containing the candles had been missed.

ORIGINALITY.

Say something against Lax Fos in the presence of those who have taken it and you'll be sorry. Every person using Lax Fos will tell you an interesting story of how it cured them.

Lax Fos is the very latest example of medical enterprise, ingenuity and originality. Those who have been sick, and others, say, Lax Fos is the best medicine made. To make it a little better than any other remedy even though it cost more is an investment and not an expense to the S. H. Winstead Medicine Co. No advertisement is equal to having people say Lax Fos is the best. To succeed in any business give the consumer more than you promise. That is done in Lax Fos. It cures indigestion, constipation, kidney and liver trouble. Its good effects are felt at once. Take as substitute. The genuine is sold on the money back plan by druggists everywhere.

ALL READY

COMPLETE PREPARATIONS
MADE FOR THE CONFED-
ERATE REUNION.

Nashville, Tenn., May 18.—All arrangements for the Confederate Reunion in June have been completed and the Confederate organizations in conjunction with the business associations have provided a splendid programme and made ample provisions for the care and entertainment of all visitors.

The only variation from former rules is the giving of preference to the old soldiers. The sponsors and maids of honor are to be entertained by the commanders of the departments, divisions or brigades which they represent. Special provisions have been made for many of them in the best homes. The orator of the reunion will be the Rev. S. McKim, of Washington, and Senator John W. Daniel, of Virginia, has been selected to deliver the oration at the laying of the corner stone of the monument to private Confederate soldiers.

Memorial services will be held on the second day in honor of the late Commander-in-Chief John B. Gordon, and Judge Thos. G. Jones ex-Governor of Alabama, will deliver the eulogy and present the resolutions.

JAPS TO STAY

THEY WILL SETTLE IN LOUISIANA JUNE 1.

New Orleans, La., May 18.—Probably the first direct "development effect" to be felt in the Louisiana Purchase Exposition is the semi-official recognition given by the Japanese Commission to the immigration movement from Japan to the rice growing country in Louisiana and Texas, and the encouraging of this movement by the commissioners.

About the first of June a number of the prominent Japanese now in St. Louis, will leave for Louisiana and Texas under the escort of R. Onishi, Japanese Land and Immigration agent for the Southern Pacific railroad, who will take them through the rice country on a tour of inspection. About the same time a party of more than 100 Japanese, who are en route from Japan for San Francisco, will reach Houston. The latter will settle in the rice country and become rice farmers. Two members of this party, so General Passenger Agent Anderson is informed, are bringing with them more than \$100,000 with which to purchase rice lands and start Japanese colonies.

UNDER WHEELS

DAVID ORR AND EDWARD WHITEHOUSE HURT BY I. C. TRAIN.

Louisville, Ky., May 18.—While attempting to board an Illinois Central train, David Orr, of Caseyville, Ky., and Edward Whitehouse, of Brookfield, Ill., fell beneath the wheels. Orr's feet were so badly mashed that amputation at the ankle of both was necessary. Whitehouse suffered a severe scalp wound and internal injuries.

Despite his severe injuries, Whitehouse carried his companion on his back in an endeavor to take him where he could get aid. When found, both men were unconscious, but Whitehouse was still holding tightly to his companion.

It is said that they were trying to beat their way South, where they were to get employment. Whitehouse is twenty years of age and Orr is twenty-three.

WORLD'S FAIR RATES.

For the World's Fair Louisiana Purchase Exposition, to be held at St. Louis from April 30th, to Dec. 1st, inclusive, the Illinois Central Railroad Co. will sell excursion tickets from Paducah to St. Louis and return as follows:

Daily from April 25th to Nov. 15th, round trip \$8.50, good returning until Dec. 15th.

Daily from April 25th to Nov. 30th, round trip \$7.10, good returning for 60 days, in addition to date of sale but no later than Dec. 15th.

IN THE COURTS

Very Little of Interest Done in Circuit Court Today.

Misdemeanor Cases Principally in the Police Court.

At press time the case of G. G. Scott against the I. C. was under advisement by Judge Reed who announced he was considering peremptory instructions. The case is one where two horses were shipped here from Mississippi and held by the road for freight dues, the agent in Mississippi having made too small a rate, and the owner of the horses claims he lost \$2,000 by the holding of the animals. He claims the loss was sustained in the bad condition the horses were rendered by confinement in the car and by the loss of service at the race track, the horses being racers.

At press time the case of J. A. Glauber against Gus Ruoff was on trial. Glauber sues for \$100 damages for the loss of a horse he claims Ruoff drove to death. The case was appealed from Judge Lightfoot's court.

The motion for a new trial in the case of Donnelly Carney against Eli Guthrie was overruled and an appeal granted.

The motion for a new trial filed by the defense in the case of Sarah Ellithorpe against Louise Donnoy, was overruled and an appeal granted.

J. Grit Jones was excused as a petit juror and W. H. Riecke substituted. The defendant in the case of Frank R. Quirey against the I. C. filed a motion with reasons for a new trial.

The City National Bank today recovered judgment against Dick Calissi for \$155.52.

The appeal suit of Henry Katterjohn fined \$25 in a test case and appealed from police court to decide the constitutionality of the license ordinance relative to the license on teams, was docketed.

POLICE COURT.

Judge Sanders held a short session of police court this morning.

Will Overstreet was fined \$10 and costs for violating the Sabbath.

Mrs. Eliza Wilbite was dismissed of the charge of drunkenness.

Clip Baker, white, was fined \$1 and costs for drunkenness.

George Douglas, James Flannigan and James Brooks, all white, were fined \$1 and costs and sentenced to thirty days in the city prison for drunkenness.

The case against Bob Davis, colored, for shooting Mattie Moreland, colored, was continued.

The case against Mattie Moore for presenting a pistol was continued.

CHICAGO BURGLARS

OWING TO ACTIVITY HIGH SCHEDULE TO BE FIXED FOR BURGLARY RISK.

Chicago, Ill., May 18.—The activity of burglars has made burglary insurance in Chicago unprofitable to the companies that have been placing it. The announcement that a new high schedule of rates on burglary insurance will go into effect here on June 1 has brought to light some startling facts in connection with this class of insurance.

Representatives of prominent insurance companies acknowledge that in the last ten years the Chicago agencies handling burglary insurance have sustained a loss of from \$20,000 to \$330,000, in spite of the fact that the rates here are from 25 to 40 per cent higher than in New York, Philadelphia and other large cities.

During the last five years the number of burglaries and thefts in Chicago has increased to an alarming extent, insurance men say. Several companies have either stopped taking risks or have transferred their business to some other company.

IS A YOUNG MAN.

A BRIEF SKETCH OF THE NEW BISHOP OF KENTUCKY.

Baltimore, May 18.—Rev. Dr. John Gardner Murray, rector of St. Michael's and All Angels' Church, in this city, who was chosen bishop of the Kentucky diocese of the Protestant Episcopal church, to succeed the late Bishop Thomas Underwood Dudley, is 45 years of age, and a native of Loudoun, Maryland. Shortly before coming to Baltimore from Birmingham, Ala., a year ago last March, Dr. Murray was elected bishop of Mississippi, but declined the office. Dr. Murray left for New York yesterday and the rector of St. Michael's said he was unable to state whether Dr. Murray would accept the honor conferred upon him.

PROMINENT MAN

Is That Sued by Miss Leonard, of Eddyville, Ky.

One of the Most Curious On Record, According to Dispatches.

The suit filed in New York by Miss Sallie Leonard, of Eddyville, against Alexander Higginson, for breach of contract, has aroused great interest, and is one of the most peculiar on record.

A New York dispatch to the Louisville Times gives the following particulars of the unique proceeding:

"Mr. Higginson is well known in Boston, where he belongs to the University club and other social organizations. His father has long been prominent as a banker. Young Mrs. Higginson obtained her divorce last month on the ground of cruel and inhuman treatment.

"In an affidavit drawn by I. Jacobson, of Howe & Hummel, Miss Leonard gives the circumstances under which she met Mr. Higginson. She says she made her debut in March, 1903, in Boston, in James K. Hackett's company in 'The Crisis.' She met Mr. Higginson through Miss Charlotte Walker, leading woman of the company, and two days later she went to a supper given by him, at which there were also present his father and mother, a Mr. Chamberlain, Miss Walker and Miss Georgiana Pitcher. At another supper given by Mr. Higginson a few evenings later the guests included Miss Pitcher, John Drew and Henry Miller, chartered by his sister-in-law, Mrs. Garland. Miss Leonard and Miss Pitcher spent Sunday in his home, in the suburbs of Boston, and on Monday morning he drove them back to the city.

"The affidavit declares that Miss Leonard returned to New York on September 8, and Mr. Higginson called on her and took her to the theater. He told her afterward that he was being followed by detectives and he feared that her name might be introduced in his wife's suit. She replied that she feared nothing of the kind, as there would be no reason for naming her."

BOTH IMPROVING.

Walter Ransdell, the young white man shot at Ingleside and John Lacey, colored, also shot and seriously wounded, are getting along nicely. Ransdell shows improvement.

THE ONLY CURE

136 East Fifth Street, New York City, N. Y., June 1, 1903.
I believe that if we all knew the laws of health we would all be well and if sick women only knew the true value of Wine of Cardui they would be saved much suffering and would soon be cured. I have very strong faith in it. I used it for five months for a local difficulty which had troubled me for years and had spent hundreds of dollars in the endeavor to get well. My life forces were being sapped and I was daily losing my vitality with that bearing down feeling which thousands of women know all about. Your medicine cured me. I am enjoying the very best of health now and am only too pleased to endorse your great remedy.

Mrs. C. A. Welch
BALTIMORE MARYLAND

WINE OF CARDUI

Mrs. Welch lives in New York City where the best medical attention can be secured, but she writes that Wine of Cardui was the only medicine which could cure her. A woman who has been saved from a life of suffering by Wine of Cardui when other medicines failed to benefit her has reason to have strong faith in this great tonic.

Mrs. Welch has faith in Wine of Cardui because it cured her. Hundreds of thousands of women have faith in this grand old medicine because it not only cured them, but it continues month after month to ease their pain and give them strength for the duties of life. Should you not give it a trial? Here is a well tried and successful remedy which it is your privilege to take. Nobody can prevent you from securing health. You know that over a million women owe life and health to this great menstrual regulator. A million cured women advise you to take it. Will you listen to their advice? Won't you go to your druggist today and secure a bottle of Wine of Cardui?
